

CONFINED SPACE ENTRY TRAINING

Gain the skills and confidence to enter and work safely in confined spaces. This nationally recognised training covers hazard identification, risk controls, use of gas testing and monitoring equipment, PPE, ventilation, communication and emergency procedures.

- RIIWH202E** Enter and work in confined spaces
- RIIRIS201E** Conduct local risk control
- MSMWH201** Conduct hazard analysis
- MSMPER200** Work in accordance with an issued permit

1 DAY
COURSE
NATIONALLY
RECOGNISED

1. WHO IS THIS COURSE FOR?

- Workers who are required to enter or work in confined spaces
- People working in construction, maintenance, utilities, warehousing, manufacturing and similar industries
- Anyone who needs practical confined space entry skills for their role

2. WHAT YOU WILL LEARN

- Identify confined space hazards and apply risk controls
- Use gas detection and atmospheric monitoring equipment
- Follow entry permits and safe work procedures
- Use confined space and personal protective equipment correctly
- Work effectively as part of a confined space team

4. COURSE OUTCOMES

- Develop the practical skills and knowledge to enter and work safely in confined spaces
- Learn to identify hazards and control measures effectively
- Gain confidence using gas detection, permits and entry procedures
- Receive a Statement of Attainment on successful completion

5. OUR TRAINING APPROACH

- Trainer-led face-to-face learning
- Practical hands-on demonstrations and activities
- Supportive learning environment
- Realistic workplace scenarios
- Experienced industry trainers

6. ASSESSMENT

- Practical demonstration of confined space entry skills
- Scenario-based activities
- Short written or knowledge-based questions

7. ENTRY REQUIREMENTS

- There are no formal prerequisites for this course. Learners must:
- Have sufficient English language and literacy skills
 - Be physically able to enter and work in confined spaces
 - Provide their Unique Student Identifier (USI)

8. COMPLETION REQUIREMENTS

Learners must successfully complete all required practical activities and assessments to be deemed competent and receive a Statement of Attainment.

9. LEARNER-SUPPLIED RESOURCES

Learners must wear appropriate PPE for practical activities, including steel-cap boots, high-vis vest or high-vis clothing, long sleeved shirt, long trousers, hard hat and any other required site PPE.

10. LEARNER SUPPORT

Learner support and reasonable adjustments may be available where appropriate, provided the integrity of the training and assessment is maintained. Contact us to discuss your needs.

11. RPL AND CREDIT TRANSFER

RPL and Credit Transfer may be available for eligible learners. Contact us to discuss recognition options and suitable pathways.

12. PAYMENT TERMS

Payment is required at the time of enrolment to secure your place. Payment can be made by invoice or credit card via our secure Stripe payment gateway. Credit card processing fees apply.

13. REFUNDS & CANCELLATIONS

Refunds are available in accordance with Programmed's Refund Policy. Cancellations made within the timeframes specified in the policy may be eligible for a refund or course cancellation terms are available on our website.

14. ENROLMENT CONDITIONS

By enrolling in this course, you agree to Programmed's enrolment terms and conditions, including applicable course, governing cancellation and learner requirements. See our website for full terms and conditions, or contact us for more information.

3. COURSE SNAPSHOT

Duration:
1 day

Cost:
\$750 per person

Delivery Mode:
Face-to-face classroom and practical training

Venue:
See website for delivery locations. Workplace training also offered – email us for details.

Course Dates:
Please see website for upcoming course dates.

Workplace Delivery:
Available on enquiry

Outcome:
Statement of Attainment for RIIWH202E and units listed above
