

CONFINED SPACE RESCUE TRAINING

Prepare. Respond. Save lives.

This nationally recognised confined space rescue course equips learners with the skills, knowledge and confidence to plan for, respond to and safely conduct rescue operations in confined spaces.

Designed for entrants, supervisors and rescue team members, this course focuses on practical techniques, teamwork and the correct use of equipment to manage emergencies and protect lives.

2 DAY
COURSE

NATIONALLY
RECOGNISED

THIS COURSE INCLUDES THE FOLLOWING NATIONALLY RECOGNISED UNITS:

- | | |
|---|--|
| ✓ RIIWS202E Enter and work in confined spaces | ✓ MSMPER300 Issue work permits * |
| ✓ RIIRIS201E Conduct local risk control | ✓ MSMWHS217 Gas test atmospheres |
| ✓ MSMPER200 Work in accordance with an issued permit | ✓ MSMWHS216 Operate breathing apparatus |
| ✓ MSMWHS201 Conduct hazard analysis | ✓ PUASAR025 Undertake confined space rescue |
| ✓ MSMPER202 Observe permit work | ✓ HLTAID009 Provide cardiopulmonary resuscitation |

**MSMWHS201 Conduct hazard analysis is a prerequisite unit for MSMPER300 Issue work permits and is included in the delivery of this course (they need to have this before completing this unit).*

1. WHO IS THIS COURSE FOR?

- Workers who may be required to enter confined spaces
- Permit issuers and supervisors
- Designated rescue team members
- Anyone responsible for workplace safety and emergency response in confined spaces

2. WHAT YOU WILL LEARN

- Plan for confined space entry and emergencies
- Conduct risk assessments and implement control measures
- Use breathing apparatus, retrieval systems and rescue equipment
- Perform non-entry rescue and initial response
- Work effectively as part of a rescue team

3. COURSE OUTCOMES

- Develop the skills and confidence to respond to confined space emergencies
- Apply practical rescue techniques safely and effectively
- Follow correct procedures to minimise risk and protect lives
- Receive a Statement of Attainment on successful completion

4. OUR TRAINING APPROACH

- Highly practical, scenario-based training
- Realistic rescue simulations
- Experienced industry trainers
- Supportive learning environment
- Aligned with current industry standards and legislation

8. COMPETENCY REQUIREMENTS

Learners must successfully complete all assessment requirements to achieve a Statement of Attainment.

9. LEARNER-SUPPLIED EQUIPMENT

Learners must have appropriate PPE for practical activities including safety boots, long sleeves and hi-vis clothing and/or safety glasses, and a hard hat.

10. LEARNER SUPPORT

Learner support and reasonable adjustments are available. Please contact us at the time of your registration/assessment if any reasonable adjustments are required.

11. RPL AND CREDIT TRANSFER

RPL and Credit Transfer may be available for eligible learners. Contact us to discuss recognition options and suitable pathways.

12. PAYMENT TERMS

Payment is required at the time of enrolment to secure your place. Payment can be made by invoice or credit card via our secure Stripe payment gateway. Credit card processing fees apply.

13. REFUNDS & CANCELLATIONS

Refunds are available in accordance with Programmed's Refund Policy. Cancellations made within the timeframes specified in the policy may be eligible for a refund or course credit. Full are waived our website.

14. ENROLMENT CONDITIONS

*By enrolling in this course, you agree to Programmed's enrolment terms and conditions, including applicable course, payment, cancellation and learner requirements. See our website for full terms and conditions, or contact us for more information.

COURSE SNAPSHOT

Duration:
2 days

Cost / Fees:
\$750 per person

Delivery mode:
Face-to-face classroom and practical training

Venue / Locations:
See website for delivery locations. Workplace training also offered – email us for details.

Course dates:
Please see website for upcoming course dates.

Workplace delivery:
Available on enquiry

Outcome:
Statement of Attainment for all units of competency listed on this flyer.
